

Building Information
Management Council

SPONSORSHIP PROSPECTUS

Why Sponsor the BIM Council:

The BIM Council is an alliance of all those who are willing to contribute their time and talent toward improving the entire facilities industry. We want information to flow from authoritative sources to end users at every phase of the project. To accomplish this we need support from individuals, companies, agencies, and sponsors and donors.

The National Institute of Building Sciences provides the infrastructure for us to develop the overarching standards needed to reach across the industry as no other organization can. To develop specific aspects of the transformation and to pull together all of those pieces requires a lot of effort and resources: We know what needs to be done, but we need your help as individuals, companies, agencies, sponsors and donors to contribute to the council so we can all be successful.

Add your company, agency or individual name to the list of industry leaders today by joining the council, donating to the council or increasing your level of support.

SPONSOR OPPORTUNITIES

BIM Council – This council offers industry-wide, public and private leadership and support for the development, standardization and integration of building information modeling (BIM) technologies to support the full automation of the entire life cycle of buildings. The council develops, publishes and maintains the consensus-based National BIM Standard - UnitedStates® (NBIMS-US)™ and, in association with the American Institute of Architects (AIA) and the Construction Specification Institute (CSI), the United States National CAD Standard® (NCS).
